CONTENTS

Tectonophysics Volume 221

Special Issue: Seismic Studies of the Iberian Peninsula (edited by J. Badal, J. Gallart and H. Paulssen)

Preface vii
Teleseismic P-residual study in the Iberian Peninsula
J. Plomerová, G. Payo and V. Babuška 1
The P-wave velocity structure of the mantle below the Iberian Peninsula: evidence for subducted lithosphere below southern Spain
M.J. Blanco and W. Spakman 13
A deep seismic sounding investigation of lithospheric heterogeneity and anisotropy beneath the Iberian Peninsula
ILIHA DSS Group 35
Lateral variation of the crust in the Iberian peninsula: new evidence from the Betic Cordillera
E. Banda, J. Gallart, V. García-Dueñas, J.J. Dañobeitia and J. Makris 53
Seismic images and evolution of the Iberian crust in the Pyrenees
E. Suriñach, J.-M. Marthelot, J. Gallart, M. Daignières and A. Hirn 67
Structure of the crust in the schistose domain of Galicia–Tras-os-Montes (NW Iberian Peninsula)
J. Téllez, L.M. Matias, D. Córdoba and L.A. Mendes-Victor 81
Shallow structure of part of northwestern Iberia from short-period Rayleigh-wave observations
J. Sarrate, J.A. Canas, L. Pujades, J. Badal, V. Corchete and G. Payo 95
Short period surface waves in the Iberian region. Part I. Group-velocity contour-lines (*Extended abstract*)
G. Payo, E. de Ancos and J. Badal 107
The crustal structure in Iberia inferred from P-wave coda
H. Paulssen and J. Visser 111
Space clustering properties of the Betic–Alboran earthquakes in the period 1962–1989
J.A. Peña, F. Vidal, A.M. Posadas, J. Morales, G. Alguacil, F. De Miguel, J.M. Ibañez, M.D. Romacho and A. López-Linares 125

Research Papers
Structure of the southern Rhine Graben from gravity and reflection seismic data (ECORS–DEKORP program)
D. Rousset, R. Bayer, D. Guillon and J.B. Edel 135
Crustal extension in the Oslo Graben, SE Norway: a method incorporating magmatism and erosion
S. Pallesen 155
Compression versus extension in the exhumation of the Dora-Maira coesite-bearing unit, Western Alps, Italy
A. Michard, C. Chopin and C. Henry 173
Oceanic lithosphere at the edge of a Cenozoic active continental margin (northwestern slope of Galicia Bank, Spain)
J.A. Malod, J. Murillas, J. Kornprobst and G. Boillot 195
Mode of seafloor spreading in the northern Mariana Trough
T. Yamazaki, F. Murakami and E. Saito 207
Geological evolution of the late Proterozoic "Mozambique Belt" of Kenya
P.N. Mosley 223
Cretaceous paleomagnetism of the Fergana Basin and adjacent ranges, central Asia: tectonic implications
M.L. Bazhenov 251
Deformation of granitoids at low metamorphic grade. I: Reactions and grain size reduction
J.D. Fitz Gerald and H. Stünitz 269
Deformation of granitoids at low metamorphic grade. II: Granular flow in albite-rich mylonites
H. Stünitz and J.D. Fitz Gerald 299
Transfer zones of deformation in thrust wedges: an experimental study
S. Calassou, C. Larroque and J. Malavieille 325
Deformation around rigid particles: the influence of slip at the particle / matrix interface
B. Ildefonse and N.S. Mancktelow 345

Relationship between remagnetization, magnetic fabric and deformation in Paleozoic carbonates
W. Sun, M. Jackson and J.P. Craddock 361
Paleomagnetism and electron microscopy of the Emeishan Basalts, Yunnan, China
R. Van der Voo, W. Fang, Z. Wang, D. Suk, D.R. Peacor and Q. Liang 367
The rotation of magnetic grains
G.J. Borradaile 381
Numerical modelling of lithosphere shortening: application to the Laramide orogenic province, western USA
S.S. Egan and J.M. Urquhart 385
Stress tensor determination in France and neighbouring regions
B. Delouis, H. Haessler, A. Cisternas and L. Rivera 413
Least-squares palinspastic restoration of regions of normal faulting—application to the Campos basin (Brazil)
D. Rouby, P.R. Cobbold, P. Szatmari, S. Demercian, D. Coelho and J.A. Rici 439
Shear-wave velocities, anisotropy and splitting in high-grade mylonites
S. Ji and M.H. Salisbury 453
Effect of the Altiplano-Puna plateau, South America, on the regional intraplate stresses
M. Assumpção and M. Araujo 475
